

## Report on Jal Pakhwada – 16<sup>th</sup> April to 30<sup>th</sup> April 2026

As per the directions of the Ministry of Education, the Government of India observed *Jal Pakhwada* in April 2026 to promote awareness and active participation in water conservation. The initiative aimed to involve students, teachers, parents, and all stakeholders in understanding the importance of conserving water.

During this period, the following participatory activities were conducted:

### 1. Jal Shapath (Water Pledge):

A water conservation pledge was administered on the first working day of Jal Pakhwada and repeated during morning assemblies. Students, teachers, and staff actively participated, reinforcing their commitment to saving water.

हर घर जल  
नल जल की रक्षा और जागरूकता सृजन की प्रतिज्ञा  
HAR GHAR JAL  
PLEDGE FOR PROTECTING 'HAR GHAR JAL' TAP WATER  
& AWARENESS GENERATION

Today, I take an oath to embrace mindful practices that lead to judicious use of water being provided under Har Ghar Jal Programme and protection of the water resources that are a valuable asset for the society, we live in.

I take pledge for:

- I will protect the assets created under 'Har Ghar Jal' Programme i.e, Tap water connection, Pump Houses, overhead tanks and other infrastructures;
- I will also sensitize local community about the importance of water sources to sustains our access to clean and safe water;
- I pledge to actively participate in safeguarding and preserving them for current and future generations;
- I will ensure to promptly fix leaks, use water-efficient appliances, and turn off taps while brushing and using only what is essential;
- I will also spread awareness to encourage a collective sense of responsibility for our water resources.

By embracing this pledge, I take a step forward in contributing my bit for long-terms sustainability of 'Har Ghar Jal' programme in my village, area, district, etc and contributing to a sustainable and harmonious coexistence.

### 2. Workshops and Meetings:

In the first week, workshops and meetings were organized to highlight the importance of water conservation both at school and at home. Discussions were also held during class teacher periods to deepen students' understanding and awareness.

### 3. Creative Competitions:

Various engaging activities such as debates, essay writing, painting competitions, and quizzes were organized. These activities encouraged students to express their ideas and solutions related to water conservation creatively.

### 4. Awareness Campaigns:

Messages promoting water conservation were displayed on school monitors, and soft boards were decorated with informative posters and illustrations. These efforts helped spread awareness among the entire school community.

Overall, Jal Pakhwada was successfully observed, fostering a sense of responsibility and encouraging sustainable practices among students and staff.
